In 1993, enthusiastic French and Romanian researchers launched in Iași (Romania) the 1st French-Romanian Meeting on Polymers. Over time, these biannual meetings have fostered the birth and development of many fruitful collaborations between the two countries.

In 2016, the Materials Forming Center (CEMEF) of Mines ParisTech in Sophia Antipolis, the Nice Sophia Antipolis University and the Institute of Macromolecular Chemistry "Petru Poni" of the Romanian Academy,

IASI, are organizing the 12th edition of the French-Romanian Meeting on Polymers, held in Sophia Antipolis (Alpes-Maritimes, France) from 5 to 7 September 2016.

We wish this meeting to be, as usual, very friendly. It aims to boost scientific exchanges, promote communication between teams and help building scientific collaborations between researchers from diverse but complementary backgrounds, between Romania and France.

The event will be organized around oral communications, mainly given by doctoral students or post-doctoral scientists and by guest speakers.

To best promote exchanges between all actors in polymer science, no specific theme is imposed: all aspects in the fields of chemistry, physical chemistry, physics and mechanics of polymers and for the whole spectrum of possible applications will be discussed.

Communications

Oral communications will be of 20 minutes (including 5 minutes of discussion). Poster sessions are planned. The official languages of the meeting are English and French.

Location of conference. Travel and accommodation

The meeting will be held on the campus of Mines ParisTech in Sophia Antipolis close to Antibes. Located a few km from the sea side, the campus is well equipped for hosting such a meeting. Details regarding how to reach the meeting place and hotels are given on the web site. The closest airport is Nice and the closest train station is Antibes.

Registration and fees

To register, you must send the filled registration sheet given at the end of this circular to Sylvie Massol (sylvie.massol@mines-paristech.fr).

Registration fees are **200€** if paid before July 31st, **280€** if paid after this date.

Instructions on how to pay registration fees are given on the web site. Registration includes proceedings, coffee breaks, three lunches, a conference dinner and a visit of Monaco including the exotic garden and the oceanographic museum.
